commings. History never shaped an irodination to dipose the self of the same ratio and the later of the plant for the same ratio and the later of the plant before on the gent of framenia of the same ratio and the later of the same ratio and the later of the same ratio and the later of the same ratio and reorganised the later of the special parties in the purpose in the same of the special parties of the special parties of the special parties of the same ratio.

64. Immediately after the bogimning of disorders in Roumania, its indexest and "Volkaman penfucieus" Andreas Same on the connoc" in Berlin, were summoned before HDSCIER. Horix SDM had immediately been released. SCHILERBERG met him, together with SCHILER, at a dinner party liven by MOMILER. SDM made a timid, weakly and sickly impression. He did not strike SCHILERBERG as a particularly impressive personality. The shape of his head was characterised by a relatively high but strongly recalling brow. SCHILERBERG says that his experience of heads shaped thus but not good and added that they pertain to fanatics and that HITLER toc 'rad a receding brow.'

6). It was decided that SDM should immediately form a counter Coverement and start a resistance movement together with SCRMIDT. For this purpose use should be make of the remaining adherents of the "Iron Guerd" as well as the "Volkm" Guerns in the "Volkm"-group of SCRMIDT. Both SDM and TMHME were instantly cent to Budapest by plane. Ant VI and Wil-Ant were to supply technical support for W/T, money and training. CHILLEBERG as, that in order to understand how this worked in practice the following must be considered:—

- (1) THILD and KINNECK were sworn enomics.
- (2) WHINNER claimed political lendership vis a vis HOR/ENY, and last but not least,
- (a) Heria SIMA hoped to make special arrangements with the Serman Fereign Office (Minister ALTENBURG and Professor SIX), with military quarters in Vienna, and above all with the Mil-Amt (Front Recommaissance).

When SCHILLIBEEC wanted to make order the "Vienna clique" headed by KALTEN-PR NICER assailed him.' SCHILLIBEEC therefore left the whole thing to stow in its own fuice. He says that quite inturally nothing much resulted from it. When it can to the worst (in the military domain SCHILLIBEEC had nottled the question proviously in detail with CHIET2 of Pil C. and WIESE of Vienna), SCHILLIBEEC susmoned SDMA who appeared accompanied by a Legation counsellor of the German Poreign Office (for SDMA had in the meantime been made "Decellers") and informed him in an ammistalmble way that he had to apply to MARKECK in all questions relating to the "Genetics Maldedienst" and so on. According to SCHILLIBEEC, this stop at least had the result that all intelligence measures undertaken by air were in future controlled by one single quarter.

66. SCHAIDT them flow to Roumania. His plane crashed. He continued his journey on foot, established contact with all his men and reported one key that he would return by Roumanian plane. According to W/T messages sent by the "Hamptoem'tragter" SUREN, SCHAIDT's plane, was shot down. It was alleged that the ground staff had heteroyed his flights. SCHAIDT was said to be only wounded. It was referred to the property of the flight of the plane, that he had embored into chose worther and the said moored into chose worther and the said staff of the said
